Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner recommended amending claims 55 and 67 to recite non-transitory computer readable medium to overcome a 101 rejection. Further the Examiner stated that the makeup of the claims 57 and 69 is such that the program itself is not important but the matter is rather directed at transmitting the program thus it would be subject to a 103 rejection and the Examiner recommended canceling the claims. Finally the Examiner cited that he would cancel the withdrawn claims as they are drawn to a non-elected invention without traverse. The Applicant agreed to the changes and an Examiner's amendment was prepared with the notice of allowance. .
